

## **Climate Resilience and Humanitarian Action (CRHA) – Advanced Diploma Expressions of Interest – Course Developers**

The National University of Vanuatu (NUV) was established in January 2020. Located in Port Vila, its purpose is to provide higher education advancement and lifelong learning, through academic and professional excellence, training, teaching, and learning in the English and French languages, research, and international cooperation.

The National University of Vanuatu has been offering the CRHA Diploma since 2023. This program is uniquely designed to address the climate change challenges and the training needs of Vanuatu and the region. Using an interdisciplinary approach, fully aligned with national and regional plans, NUV’s CRHA program provides Vanuatu professionals and students with much-needed skills in climate change, humanitarian action, and climate policy and law.

In order to progress the successful CRHA Diploma Program, NUV will offer a new **Advanced Diploma in 2025**. NUV is seeking Expressions of Interest from suitably qualified, and experienced, personnel to develop teaching and learning materials for its new **CRHA Advanced Diploma**.
