

## National University of Vanuatu

### Job Description and Specification

#### Job Title

#### Advanced Programmer Developer/Lecturer

#### Background

The National University of Vanuatu (NUV) was established in January 2020 and is located in Port Vila. Its purpose is to provide higher education advancement and promote lifelong learning through academic and professional excellence. This is achieved through training, teaching and learning in both English and French, as well as research and international cooperation.

The National University of Vanuatu offers a Diploma in Information and Communications Technology (ICT) starting in 2025. An ICT Training Needs Assessment was conducted in 2020 and was followed by a feasibility review and analysis completed at the end of 2021.

The ICT diploma will address and focus on the areas of high priorities to provide qualified workforce for Vanuatu ICT sector:

- Full Stack Developer
- Network Technician
- User support specialist
- Technician Support / IT Technician

#### Reporting To

ICT Diploma Coordinator and Advisor

#### Work closely with

- Other ICT Diploma course Developers/Lecturers
- SASS

#### Job Purpose

The position is responsible for the development and delivery of the Advanced Programming course (ITDI203), including designing course content, preparing instructional materials, and teaching lectures.

#### Position Summary

The position is responsible for the development and delivery of the Advanced Programming course (ITDI203) and will work closely with the ICT Diploma Coordinator, ICT Program Advisor, and other ICT Diploma course developers and lecturers. In addition, the role involves engaging with industry partners to create learning opportunities and facilitating programming-specific internship programs.
